

Double Action Hand Pump

PISTON AIR PUMP

- Double efficiency
- Half of the time spent compared to traditional piston pumps

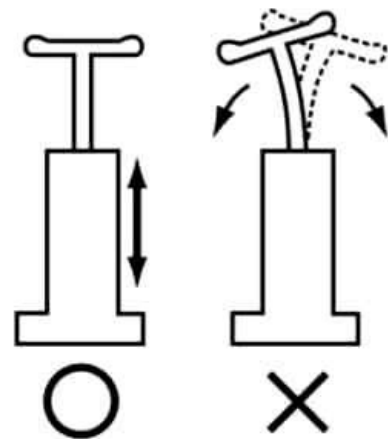

- Capacity approx. 2x 1400 cm³

Standard label

Piston displacement: 2x 1.4 Liter
Nominal pressure : 1.0 bar

- Ideal for use on large inflatable such as air beds
Beach balls, towables, inflatable boats ,and etc.

- To Inflate/deflate
Simply attach the hose onto the top handle where it marked
inflation or deflation with an arrow.

Maintenance: Unscrew the cap and pull it out together with the piston. Clean the inner cylinder and the piston and take care that the sealing rings are always lubricated.
For assembly please place the piston carefully into the cylinder.
